

EDITORIAL

Dear readers,

You hold in your hands issues 1-2 of volume 22 (2017) of the Bulgarian Journal of Meteorology and Hydrology (BJMH).

The publishing of this volume is realised mainly with the financial support of the National Science Fund at the Ministry of Education and Science under Contract DNP 05/43 from 22.12.2016.

In 2017 BJMH obtained an ISSN for its online version. You can also find all published issues of vol. 19 (2014), vol. 20 (2015) and vol. 21 (2016) on the website of our journal at <http://meteorology.meteo.bg/global-change/index.html>.

Issues 1-2 of volume 22 consist of five original scientific papers and one paper focusing on climate change policies and their implementation at European and national level. There is also information about the “XXVII Danubian conference on hydrological forecasting and hydrological bases of water management” hosted by the National Institute of Meteorology and Hydrology – Bulgarian Academy of Sciences (NIMH-BAS) and organized jointly by the Bulgarian National Committee for the International Hydrological Programme of UNESCO, under the support of UNESCO Regional Bureau for Science and Culture in Europe (Venice, Italy) and NIMH-BAS. The last material is dedicated to the 80th anniversary of our eminent and beloved colleague and former director of NIMH-BAS Corresponding Member Prof. Vassil Andreev.

We are constantly inviting Bulgarian and foreign authors to submit original and high quality works to be published in the journal. We are strongly motivated to assure the regular issuing of BJMH and to raise its popularity among scientific communities both in Bulgaria and abroad.

Ekaterina Batchvarova (Chief Editor)
Tatiana Spassova (Executive Editor)
